Welcome to the Girls RISEnet monthly newsletter, bringing you information on RISEnet resources, and our community to advance your work in creating girl-friendly science and engineering learning environments.

Upcoming Girls RISEnet events

Gender Equity In Out-of-School Time
Date: 05/16 - 05/17/2012
Organization: Saint Louis Science Center

Strategies for Engaging Girls in STEM Pathways
Date: 05/18/2012
Organization: Miami Science Museum

RISEnet Regional Networking Workshop
Date: Summer 2012
Organization: Oregon Museum of Science and Industry

Engaging Girls in Science Technology Engineering & Math (STEM)
Date: 09/15/2012
Organization: California Academy of Sciences

Visit our showcase to learn more about recent Girls RISEnet activities

Minority High School Students Visit Boeing
Date: 04/24/2012
Organization: The Diversity Awareness Partnership and the Saint Louis Science Center

Explore the latest resources and research on engaging girls in STEM learning

Why Engineering, Science Gender Gap Persists
By: Jenny Marder

Computer Science: Teacher Preparation is Critical
By: Judith Gal-Ezer & Chris Stephenson

AT A GLANCE

Apply for a mini-grant to expand your programming for girls
For more information about Girls RISEnet, contact Cheryl Lani Juarez.

Other STEM Events and Opportunities

36th Annual SECME Summer Institute,
The University of Alabama,
June 24-July 1, 2012

2012 WEPAN Conference
June 25-27, 2012
Columbus, OH

NACME GALA: Celebrating Partnerships
October 10, 2012
New York, NY
Find new engineering activities to use with girls

ZOOM
Activities for kids, by kids. ZOOM is a daily interactive television series that challenges elementary age students to "turn off the TV and do it!" The ZOOM website offers directions to all of the activities from the television show.

Fetch
Part game show, part reality TV, and part Spoof, FETCH! features real kids, real challenges and real science. Download "real world" activities on the go!
